Ok. Cheryl – please name the files such that it is known that a file contains PII so we don't accidentally release it to the wrong folks

I just talked to Cheryl. Our plan is for her to create 2 charts. One will only be sample ID #s and results. The other will also contain the PII. CB says this is easy to do I will send only the first chart to Crass, with a copy to Zellmer at the State. I will send the second chart (with PII) to Juneau County in accordance with the signed data sharing agreement. What the County and Crass do is then up to them.

Pat – ok with you?

Chuck – how about this? Actual data would need to be scanned and redacted. He needs to get information from the county

Question

Chuck: In the above report released yesterday, EPA reports that it performed a preliminary study of the area in October 2017 by sampling 13 private wells with six of the wells exceeding the nitrate MCL. The data from this preliminary study are not included in the materials. Are you able to produce these results to us or via the County and the NDA? Are these wells within the 104 wells reportedly sampled or are they in addition to? Please advise.

Proposed response

Of the 6 private homes that exceeded the nitrate MCL in October of 2017, 4 of those homes were also part of the Juneau and Wood counties' May 2018 sampling effort and also showed elevated nitrate levels in the county's study. EPA has reached out to the two other private homeowners that were not part of the county's study but show elevated nitrate levels in EPA's October study. EPA invited them to contact Matt Komiskey, Juneau County Land and Conservation if they wished to request to receive alternative water. Please contact Mr. Matt Komiskey to inquire as to whether or not the two private homeowners from EPA's October 2017 sampling contacted him.

Comparison of results from private wells Sampled by EPA			
Resident Sampling ID ID	EPA Sampling 10/23-25/17 <> 10 mg/L	EPA Sampling 5/3/2018 <> mg/L	Juneau County May 30 2018 <> 10 mg/L
S01	>10	>10	>10
S02	>10	>10	>10
S03 (Oct 17)	<10	Not sampled	Not sampled
S04 (Oct 17)	<10	Not sampled	Not sampled
S05	<10	Not sampled	Not sampled
S06	>10	Not sampled	Not sampled
S07	<10	Not sampled	Not sampled
S08	<10	Not sampled	<10*
S12	<10	Not sampled	Not sampled
S14/S05 (Oct 17/May 18)	>10	>10	Not sampled
S15	<10	Not sampled	Not sampled
S20	>10	Not sampled	>10
S22	>10	Not sampled	>10
S03 (May 18)	Not sampled	>10	Not sampled
S04 (May 18)	Not sampled	>10	Not sampled

* Nitrate result = 9.9 mg/L

** Notified the neighbor who originally granted EPA access.

Subject: RE: NE Juneau County (WI) Groundwater Investigation

In response to Mr. Crass's e-mail sent to Charles Mikalian on Wednesday, September 5, 2018.

Of the 6 private homes that exceeded the nitrate MCL in October of 2017, 4 of those homes were part of the Juneau and Wood counties sampling effort in May of 2018. Cheryl Burdett, EPA has reached out to the two other private homeowners and invited them to contact Matt Komiskey, Juneau County Land and Conservation to request bottled water.

Please contact Mr. Matt Komiskey to inquire as to whether or not the two private homeowners from EPA's October 2017 sampling contacted him.

Sincerely,

Cheryl Burdett
